EDUCATION

Ryerson University

Toronto, ON

Bachelor of Science in Computer Science (Honours)

September 2014 - April 2019

- Concentration in Software Engineering

EXPERIENCE

Richmond Day

Toronto, ON

Junior Front-End Web Developer

August 2019 - February 2020

- Created and maintained a client-side scheduling service modal on www.mini.ca that helps users navigate to their regional service retailer website
- Developed a mobile web pamphlet for Mini Invasion 2019 to better inform the invitees with the schedule and locations of the event
- Collaborated with a team member to create a Pdf Builder; the builder uses an admin side to generate data and to export onto ready made templates
- Implemented user interface features per client's request such as drop downs, modal pop ups, photoswipe, slick sliders, onto www.gomra.com
- Created web pages using C# embedded in HTML and rendered by Razor on the .NET MVC Framework
- Communicated with clients regularly by email/phone to discuss about requirements and to get feedback

Muji

Toronto, ON
